

QUALITY OF MIND

TRANSFORMING BUSINESS

The revolutionary understanding for people who lead in business

There's only one certainty in business today – and that's uncertainty. The pace of change is such that the world we now live in can only be described as – Volatile, Uncertain, Complex & Ambiguous

Current Learning & Development interventions don't equip you with the vital missing ingredient to access greater levels of performance, resourcefulness and wellbeing. This understanding explores a new approach; it is a paradigm shift in how we see the nature of the mind.

OPEN PROGRAMME

1st - 3rd MAY | 3 DAYS

"This is a fundamental mind shift in the way you see the world. when it dawns on you, it makes a massive difference to life and career."

COO, Energy Sector

DIFFERENT

We don't work on your behaviours; or teach you to manage your thinking; we show you the fundamentals of how the mind works. When you deeply realise this 'new way' it renders so many of the previous methods redundant.

TRANSFORMATIVE

As we realise the nature of how the mind works – 'upstream' - it triggers a pervasive shift in many aspects of life and work 'downstream'. There are no exceptions, everything is in scope.

SUSTAINABLE

Once realised, this understanding does not require application or repeated 'doing'. Instead, mindsets dissolve and behaviours become obvious. An instant and sustainable benefit.

WHAT IS THE PROGRAMME?

To start, a personal 1-1 intake and orientation session, then a 3-day immersive group learning experience in a relaxed setting giving you the opportunity to deeply enquire into how the human mind works. You'll take part in a facilitated conversation, in a comfortable and informal environment with a small and select group of like-minded people. It's a simple yet powerful exploration. We'll also allow time for more private 1-2-1 conversations to tailor the work to your individual situation and needs. When the three days end, your journey truly starts. How you see the world will begin to shift seismically. We'll chat again 1-1 after a few weeks to help you embed your learning and insights practically.
